

NANO UFD.

MEGA STORAGE.

12mm

Performance That Defies Its Size

The Jewel J09 may be tiny, but it doesn't skimp on performance. Its USB Type-A 3.2 Gen 1 interface allows for speedy data transfers and it holds up to 128GB of storage capacity. Paired with its nano size and feather-light weight, this UFD is an incredibly portable-friendly storage solution.

Plug It In, Leave It In

The Jewel J09's ultra-tiny design is ideal for plug-and-stay storage on laptops, tablets, TVs, car audio systems, and more. Simply plug it in and leave it in for storage that's always on board but never in the way. You'll hardly even notice that it's there!

USB 3.2 Gen 1 Flash Drive Jewel J09

Features

- Super-speed data transfer with USB 3.2 Gen 1 interface
- Up to 128GB of storage capacity for instant storage expansion
- Ultra-tiny design is ideal for plug-and-stay storage on laptops, tablets, and more
