USB Gen2 Extreme High-Speed

Wrapped in a sleek and slim aluminum body that's both shockproof and scratchproof, the Bolt B75 Pro is a wondrous design you cannot put down. And when you do, it shines from the inside too. The Bolt B75 Pro has huge storage capacity (256GB/512GB/1TB/2TB) and reads and writes at blistering speeds (up to 520 and 420MB/s respectively). This USB 3.1 Gen2 portable SSD can also transfer data up to a lightning fast 10Gbp/s.

3D-ridged Design on Aluminum Alloy Casing

Photographers, videographers, designers, and creators will be delighted with the military-grade shockproof portable SSD, the Bolt B75 Pro. Its aluminum alloy material provides great heat dissipation, while its 3D ridges provide a barrier from scratches and fingerprints. Plus, the embedded L-shaped wraparound LED indicator gives clear indication of the data transfer status from nearly any angle.
