Earbuds That Work For You

The BP75 TWS earbuds were designed to be hassle-free. With one-step pairing, they'll automatically connect to the last paired device as soon as they're removed from the case. And, if you need to keep one ear free, single earbud mode allows you to make voice calls or listen to music with just one earbud while the other is still stored in the case.

All That Bass Without The Weight

The BP75 TWS earbuds offer the best of both worlds: powerful bass and an airy light weight. Expertly tuned 6mm dynamic drivers pump more bass than similarly-sized earbuds for an immersive sound experience that you can feel. And yet, each earbud weighs less than a grape for a fatigue-free experience, no matter how long you keep them in.

True Wireless Earbuds Blast Plug BP75

Features

- Up to 4 hours of playtime from a single 1 hour charge, plus an extra 11 hours from the fully-charged case
- 6mm dynamic drivers pump more bass than similarly-sized earbuds for a powerfully immersive sound experience
- BT V5.0 technology provides stronger wireless connectivity and easy auto-pairing for a seamless listening experience
- True Wireless (TWS) earbuds are equipped with auto-power and auto-charge functions that react instantly to withdrawal from and insertion into the case
- With one-step pairing, the earbuds automatically connect to the last paired device upon withdrawal from the case
- With single earbud mode, leave one earbud in the case but still make voice calls or listen to music
- Lighter than a golfball, the compact clamshell charging case is super portable-friendly and magnetically keeps the earbuds securely in place
- Ultra convenient USB Type-C input utilizes high-speed charging to fully charge the case in just 1.5 hours
- LED charging light provides a clear indication of the charging status
