

POWER

DDR5 Unleashes Game-Changing Performance

Experience even faster frequencies, greater capacities, and lower voltages with the latest release in our Zenith Series, the XPOWER Zenith DDR5 UDIMM module. Take your gaming abilities to new high scores with turbo speeds ranging from 5200MHz to 6000MHz, while maintaining stability with the heat-dissipating aluminum heatsink. Keep cool and get uninterrupted gameplay at the highest resolutions with a low 1.25V-1.35V power consumption, an On-Die Error Correction Code (ECC), and a power management integrated circuit (PMIC) - no matter how heated the competition gets.

XPOWER Zenith / Zenith RGB

DDR5 UDIMM with Heatsink

Features

- Premium Zenith Series gaming memory module designed for hardcore gamers and overclockers
- Turbo speeds ranging from 5200MHz to 6000MHz with nearly zero lag time
- Available in 8GB, 16GB, and 32GB module densities
- Durable aluminum heatsink provides maximum heat dissipation and thermal
- Compatible with 12th Gen Intel® Core™ processors that support DDR5 and DDR5 compatible motherboards
- · Ready and certified for Intel® XMP 3.0 for ultra-fast one-click overclocking
- Double the banks and double the burst length compared to DDR4 for game-changing performance
- Low voltage of 1.25V-1.35V for less power consumption
- Game at the highest resolutions with improved stability from On-Die Error Correction Code (ECC)
- · Power management integrated circuit (PMIC) provides a more stable power supply for uninterrupted gameplay

Specifications

- · Capacity:

Single Pack: 8GB, 16GB, 32GB

Dual Channel Kit: 16GB(8GB*2), 32GB(16GB*2), 64GB(32GB*2)

- · Color: Black, White
- · Form Factor: U-DIMM Non-ECC
- Frequency (Speed): 5200/5600/6000 MHz
- · CAS Latency: CL38 (5200), CL40 (5600), CL40 (6000)
- · Voltage: 1.25V (5200, 5600), 1.35V (6000)
- · Certification: CE, UKCA, Green dot, WEEE, RoHS
- · Warranty: Limited Lifetime Warranty
